TREASURY OFFERS 2-YEAR NOTES

The Treasury will auction \$24,000 million of 2-year notes to refund \$25,837 million of publicly held notes maturing January 31, 2005, and to pay down approximately \$1,837 million.

The Federal Reserve System holds \$8,000 million of the Treasury notes maturing on January 31, 2005, in the System Open Market Account (SOMA). This amount may be refunded at the highest yield of accepted competitive tenders either in this auction or the 20-year Treasury inflation-protected securities (TIPS) auction to be held January 25, 2005. The 20-year TIPS will be issued on January 31, 2005. Amounts awarded to SOMA will be in addition to the offering amount.

Up to \$1,000 million in noncompetitive bids from Foreign and International Monetary Authority (FIMA) accounts bidding through the Federal Reserve Bank of New York will be included within the offering amount of the auction. These noncompetitive bids will have a limit of \$100 million per account and will be accepted in the order of smallest to largest, up to the aggregate award limit of \$1,000 million.

TreasuryDirect customers requested that we reinvest their maturing holdings of approximately \$512 million into the 2-year note.

The auction will be conducted in the single-price auction format. All competitive and noncompetitive awards will be at the highest yield of accepted competitive tenders. The allocation percentage applied to bids awarded at the highest yield will be rounded up to the next hundredth of a whole percentage point, e.g., 17.13%.

The notes being offered today are eligible for the STRIPS program.

This offering of Treasury securities is governed by the terms and conditions set forth in the Uniform Offering Circular for the Sale and Issue of Marketable Book-Entry Treasury Bills, Notes, and Bonds (31 CFR Part 356, as amended).

Details about the new security are given in the attached offering highlights.
